

Sharing information with your Child's school.

We have your child's safety and wellbeing at the forefront of everything we do within all of sessions at your Child's school.

To ensure that this is done to the best of our capabilities we reserve the right to talk to the senior Leadership Team within the school regarding your child e.g Head Teacher, Safeguarding Leads, Business manager etc.

Myself and the senior leadership teams within school may have a meeting at the beginning of the school year and at intervals through the year to discuss any ways which we may be able to support your child within our setting.

This may include discussing :

- Allergies
- Medical information
- Any support they may receive during the school day
- Collection details
- Care plans
- Plus anything else we feel is important for your child / children's welfare

Any questions then please get in touch with Nick - Director of Ace Sports.
