

Emergency evacuation policy

Fire alarm

The sound of the fire alarm is intended by continuous beeping throughout the school and setting which all of the team and children are familiar with through discussion and fire drills.

Fire exit

Fire exits are clearly marked in each room and are kept clear at all times.

Evacuation and assembly point

All children and coaches will be led from the venue via a fire exit.
The lead coach on the day will then lead the children and other team to the meeting point which will be confirmed for each venue.

The lead coach / Manager will then take a register and you sure that all children are present.

In the event of a real fire a member of the team will call the fire brigade and we will inform all parents.
